

## Perry Ethan Sorenson

(919)-916-9306 | psor1241@unc.edu | 245 Pearson Pl, Clayton, NC, 27527 | [LinkedIn](#) | [Personal Website](#)

### OVERVIEW

Statistics and biostatistics student at *University of North Carolina at Chapel Hill* with experience in machine learning, epidemiological modeling, scientific computing, and data visualization. Participated in multiple datathons getting practical experience in project management and version control systems.

### Work Experience

---

#### Orientation Leader | January 2025 – Now

##### *New Student and Family Programs at UNC*

Leadership and Teamwork training, forming close relationships with teammates, and orientating new students attending UNC. Being a role model for new Orientation Leaders. Teaching inter-personality in workplace.

### SKILLS

---

**Programming Languages:** Python, R, SAS, SQL, LaTeX, Bash/Linux

**Machine Learning & Data Science:** TensorFlow, PyTorch, scikit-learn, statistical modeling, exploratory data analysis (EDA), data visualization, predictive modeling, Pandas, NumPy, statsmodels, PyMC, Pingouin, model optimization

**Data Visualization & Analytics:** Tableau, Plotly, Matplotlib, ParaView, VisIt, Seaborn

**Scientific Computing & Research Tools:** Longleaf HPC, MobaXterm, Qualtrics, FFMPEG, VirtualBox

**Development & Version Control:** Git, GitHub, Jupyter Notebook, VS Code

**Additional Skills:** Project management, technical communication, web scraping, intermediate Japanese

### EDUCATION

---

August 2024 - Now

University of North Carolina at Chapel Hill

*Bachelor of Science in Public Health (Biostatistics) and Bachelor of Science in Statistics and Analytics, Expected Graduation date is May 2028*

- **GPA:** 3.56
- **Leadership:** *President of Freestyle 101* -- Freestyle Dance Club -- An exercise in networking, communication, promotion, and leadership.
  - *Co-president of Biokind Analytics Chapter at UNC* -- Biokind is a non-profit for non-profits --
    - Exercising extensive networking and communication skills, Managing HIPAA compliance, and managed organization-wide GitHub repository
    - Led analytics initiatives and workshops for multiple nonprofit-oriented data projects while coordinating multidisciplinary student teams.
- **Notable Events:** ASA Data Fest 2025 at Duke, Carolina Data Challenge 2025 at UNC Chapel Hill, ASA Data Fest 2026 at Duke (3 Datathons), CVS Mentorship Program
- **Research Labs:** *Johnathan Berg Lab, Boyce Griffith Lab, Bai Labs*
- **Certificates:**
  - **Google Certificate in Data Analytics -**
    - Obtained proficiency in Excel, SQL, R, and Tableau
    - Entry-level presentation and public speaking skills
    - Gained understanding of the importance of data ethics and data security
    - Knowledge about the process of data analytics and how it ties into the real world

#### **CITI Certification -**

Certification to do human research

### PROJECTS

---

- **Dashboard for Different Metrics of a Simulated Heart Model | May 2025 - Now** | Making an interactive visualization portal to observe various metrics of the heart including volume, pressure, and flow. Using the university's HPC called Longleaf to extract 3D visuals and then Ffmpeg to create movies to show the flow of individual liquid particles in the heart over time.
- **COVID-19 Donation Effectiveness Analysis | Aug 2025 – Dec 2025**  
Applied epidemiological modeling methods like the distributed lag model to evaluate relationships between medical donations and COVID-19 outcomes across Latin American countries
- **An Analysis of The Relationship Between Moderate Social Drinking and Sports Betting | January 2026 – April 2026** | - Conducting survey-based epidemiological analysis examining relationships between moderate social drinking and sports betting behaviors among college students and then using Pingouin to do logistic analysis.
- **Using TensorFlow and PyTorch to Detect Tremors | June 2025 – Present**  
Developing convolutional neural networks and autoencoders to denoise biosensor time-series data and classify electrophysiological tremor patterns.
- **A Peace and Safety Centered Analysis of Education, Mental Health Provider Accessibility, and Food Insecurity in Edgecomb County | August 2025 – April 2026** Using visualization as well as PCA analysis to examine multiple social determinants with multi-collinearity to strategize on how to improve those social determinants.
